

FurniZone Project Team

Introduction

This document presents the team members participating in the **FurniZone** project. The project aims to develop a web-based furniture website that allows users to browse different types of furniture in an easy and organized way. The website will be developed using **Angular** for the front-end.

Team Members

- Basant Ali
- Mena Saber
- Fatema Mohamed
- Mahmoud Amr

Team Responsibilities

The team members will work collaboratively to complete the project. The general responsibilities include:

- Designing the website user interface.
- Developing the website pages using **Angular**.
- Organizing and displaying furniture products and categories.
- Testing the website to ensure proper functionality.
- Preparing the project documentation.

Work Approach

The team will cooperate by dividing tasks during the development stages of the project. Each member will contribute to the design, development, and testing phases to ensure the successful completion of the **FurniZone** website.
